Open Grant Proposal: `KryptoSeoul Community Development`

Name of Project: KryptoSeoul Community Development in Korea

Proposal Category: `community`

Proposer: ekang426

Do you agree to open source all work you do on behalf of this RFP and dual-license under MIT and APACHE2 licenses?: Yes, only where relevant since most of the activities are community building

Project Description

Over the course of 5 months (Aug 2021 - Dec 2021), KryptoSeoul to undertake the following community-building services for the Filecoin Project:

1. Community Partner for Filecoin Asia Hackathon Season 2021

Promote Filecoin Asia Hackathon Season to: - Korean developer communities - Vietnam developer communities Activities include (but not limited to - up to KryptoSeoul to craft): - Dissemination of PR, news, updates of the Season to the community - KryptoSeoul logo to appear as a community partner as well on our PR materials - Developers can join any track but one way could be to work closely with Tribe to bring developers in the KryptoSeoul community to the Tribe Hackathon - Collect feedback from community

2. Collaboration on other existing hackathons where appropriate - KryptoSeoul to see if there are existing hackathons in the schedule where Filecoin can join in, such as ETHVietnam, BUIDL series hackathons and conferences

3. Amplification of Filecoin Presence in Korea - Help Filecoin on overall brand-building (not day to day operations) in Korea - look to KryptoSeoul to suggest activities here that may be suitable. Some potential activities: - Interviewing Juan Benet (Founder of Filecoin) on KryptoSeoul YouTube Channel (Erica Show) etc. - Explore 1-2 meetups in Korea for Filecoin, targeting developers (in Korean), conducted by Korean developer who understands the technicalities - Encourage developer communities to join our established channels for updates and regular engagement (Filecoin Slack and Telegram once they are set up) - Loop Filecoin in (where appropriate) into Blockchain or Crypto Summits or Conferences in Korea for speaking engagements

4. Introduction to Strategic Partners and Enterprises in Korea

Advise Filecoin on potential high leverage collaborations in Korea (and/or Southeast Asia), and make the introduction - such as Kakao (GroundX/Klaytn), LINE, Samsung, LG, universities; other blockchain projects

Value

Filecoin is trying to grow in Korea in 2021. KryptoSeoul will aid in the following goals: - Grow Filecoin presence in Korea, focusing on the overall brand and visbility - Engage and onboard more Developers and Filecoin enthusiasts in Korea through KryptoSeoul's network - Build 1-2 strategic partnerships with large enterprises in Korea - Monitor Korean community feedback to advise any next steps required

Potential risks of not getting it right: - Misinformation via miscommunication between Filecoin and KryptoSeoul, either due to language translations or others, leading to detriment to the brand

Potential risks that will make executing on this project difficult: - Sudden tightening of crypto landscape by Korean government (such as restricting activities)

Deliverables

Listing out a few deliverables as below: - Successful promotion of asia hackathon season to Korea, direction of korean developers towards tribe hackathon in Singapore - Filecoin profiled on The Erica Show (either Juan or Colin), with 4.35k YouTube subscribers - Introduction to 2 potential strategic partners in Korea and help with relationship building - At least 1 meetup planned in Korea this year for developers - 5 monthly recap (or report) of completed activities and feedback from Korean community by KryptoSeoul

Development Roadmap

Here is a tentative timeline for some of the activities, where best effort is placed to conduct the activity or similar activities either within the month or in another month. If there are additional events or conferences that Filecoin may benefit from, KryptoSeoul will add on.

Aug '21 - [community] Promotion of Filecoin Asia Hackathon Season and Filecoin official korean channels through community - [meet up] Preparation of developer 101 materials in Korean, plan small meetup for Sept '21. As there are some base materials for Filecoin in English that will be provided, KryptoSeoul may get them translated to Korean for the same purposes. - Monthly report covering a recap of what was completed as well as any insights from the Korean community

Sep '21 - [meet up] Filecoin Meetup in Korea for developers before Tribe hackathon begins - [community] Help Korean developers join Tribe Hackathon (likely dates ~20 Sep - 29 Oct) - [strategic partnership] Introduction to GroundX team - Monthly report covering a recap of what was completed as well as any insights from the Korean community

Oct '21 - [community] Assist Korean developer teams during Tribe Hackathon (likely dates ~20 Sep - 29 Oct) - [amplification of brand] The Erica Show - Monthly report covering a recap of what was completed as well as any insights from the Korean community

Nov '21 - [strategic partnership] Introduction to another potential collaborator in Korea - [meet up] plan for another meetup in Nov or Dec -

Monthly report covering a recap of what was completed as well as any insights from the Korean community

Dec ’21 - Monthly report covering a recap of what was completed as well as any insights from the Korean community - Plan for 2022 - what worked, what didn’t, additional areas for Filecoin to work on with KryptoSeoul

Total Budget Requested

(Disbursement in equiv FIL token is acceptable)

Three payments to be made as such, assuming best effort completion of deliverables (or their equivalent) over the time frame of a few months each time: - End August 2021: $4,000 - End Oct 2021: $11,000 - End Dec 2021: $10,000

Maintenance and Upgrade Plans
